

Day 1	22nd Nov 2018 Thursday	Day 1	22nd Nov 2018 Thursday	Day 1	22nd Nov 2018 Thursday	Day 1	22nd Nov 2018 Thursday	Day 1	22nd Nov 2018 Thursday
Hall A		Hall B		Hall C		Hall D		Hall E	
	CME in Cardiology		National Intervention Council		Pediatric Cardiology & EP Council		Echo & Imaging Council		
9:00-10:00	New Kids on the Block	9:00-10:00	Cath Lab Practicals: Beginners Boot Camp - Session I: Basic about My Tool	9:00-10:00	Imaging in CHD - Taking a Deeper Look	9:00-10:00	CT/MRI		
	Antihyperkalemics Agents		Radial Access: Tips and Tricks		Comprehensive Echocardiographic Assessment of a VSD		Cardiac CT: The Crystal Ball of Truth. One stop shop: Plaque, Stenosis, Ischemia, Viability and FFR		
	New PAH Therapies		Chosing the Optimal Coronary Guidecatheter		ASD : To Device or Not? An Echo Guide		Cardiac MRI conquers IHD and viability		
	Antidotes for DOACs		Chosing the Correct Coronary Guidewire		Common Mistakes to Avoid in CHD Echocardiography		Cardiac MRI: The Critical Piece in the Puzzle for NICMP		
	Newer ARBs & CCBs		Choosing between Coronary Angioplasty Balloons		CT Angiography in CHD - Is it Worth the Radiation?		Imaging in TAVR: All I Need to Know		
	Newer Antidyslipidemics: PCSK9 Inhibitors, siRNA Inhibitor		Coronary Stent Selection		Cardiac MRI in CHD - An Update		Discussion and Audience Interaction		
	Anti-Obesity agents		Discussion and Audience Interaction		Discussion and Audience Interaction				
	Discussion and Audience Interaction								
10:00-11:00	Controversies in Cardiology - Is there a Consensus?	10:00-11:00	Cath Lab Practicals: Beginners Boot Camp - Session II: Techniques	10:00-11:00	Bread and Butter Pediatric Cardiology	10:00-11:00	Day to Day Echocardiography		
	Digitalis in HF - Is there an Indication Left?		When to POT and How to Do it		VSD - Natural History and When to Intervene		Echocardiography in the Emergency		
	68 year old male with No Risk Factors : Should a Calcium Score be done for Risk Stratification?		Bifurcation Techniques for the Beginners		ASD Device closure - Tips and Tricks		Mistakes to Avoid in LVEF Assessment		
	Vaccination in Cardiovascular Disease - Is it for All?		Primary PCI: Do`s and Don`ts		Difficult PDAs for Device Closure - How to Identify and Succeed		Diastology - Simplified		
	Should an Angiogram be done in all patients of STEMI presenting after 3 days?		FFR and IFR - Practical Aspects		Vascular Access in Children - Tips and Tricks		Assessing Individual Valve Lesion Severity in Multivalvular Heart Disease		
	Should Non Fasting Lipid Profile be the Standard of Care?		Discussion and Audience Interaction		Difficult AVBD and PVBD		Assessing the Right Ventricle		
	Is Hydrochorthiazide being Pushed to Oblivion? Right or Wrong				Discussion and Audience Interaction		Discussion and Audience Interaction		
	Discussion and Audience Interaction								
11:00-12:00	Lipidology - An Overview for the Clinician	11:00-12:00	CSI's Got Talent: Challenging Case Presentations	11:00-12:00	Interventional Pediatric Cardiology - Expanding Horizons	11:00-12:00	Advances in Echocardiography		
	Lipid Guidelines: An Overview		Case 1		VSD Device Closure - Is it Ready for Prime Time?		3D Echocardiography - Utility or Futility?		
	Treating High Triglycerides: Reducing CV Risk or a Mere Cosmetic Reduction		Discussion and Audience Interaction		RSOV Device Closure - Patient Selection and Tricks		Integrating Strain Imaging in my Echo practice		
	LDL Levels: How Low is Low Enough?		Case 2		Coarctation in Adults - Should I Stent All?		Stress Perfusion Echocardiography - Is it Ready for Prime Time?		
	Chosing between Statins: Personal Preference or Rational Choice		Discussion and Audience Interaction		Palliative Interventions in Cyanotic CHD		Interventional Echocardiography and Echo-Navigation		
	Non Statin alternatives for Lipid Management: An Overview		Case 3		Transcatheter Pulmonary Valve Implantation: An Update		Fetal Echo: State of the Art		

	Diabetic Dyslipidemia - Is it a Distinct Entity?		Discussion and Audience Interaction		Discussion and Audience Interaction		Discussion and Audience Interaction		
	Discussion and Audience Interaction		Case 4						
			Discussion and Audience Interaction						
			Case 5						
			Discussion and Audience Interaction						
			Case 6						
			Discussion and Audience Interaction						
			Case 7						
			Discussion and Audience Interaction						
			Case 8						
			Discussion and Audience Interaction						
12:00-1:00	Prevention of CAD - Striving to Make it a Reality	12:00-1:00	Meet the Legends: Session I- What I Always Wanted to Know But Didn't	12:00-1:00	Adults with CHD - The GUCH Group	12:00-1:00	CT/MRI Case Based Discussion		
	CV Risk Scores: Which one is Ideal for Indians?		CTO - Antegrade to Retrograde Approach: Tips for Beginners		The 'Totally Corrected' TOF: How to Follow Up?		Case 1: Post Intervention Chest Pain		
	Early detection of CVD: Why, When and How		High Risk PCI : Do's & Don'ts		Living with Fontan		Discussion and Audience Interaction		
	Targetting CV Risk: Novel Risk factors and New Therapies		Left Main Interventions – Techniques to Use in 2018		CTGA: Approach to Management		Case 2: CMR in VT		
	Primary Prevention of CVD in Diabetics		Graft Intervention - Tips and Tricks		Ebsein's Anomaly - A Contemporary Update		Discussion and Audience Interaction		
	Diet and Exercise Prescription for CAD		Discussion and Audience Interaction		Adult CHD Guidelines - What is New?		Case 3: CMR in Hypertrophic CMP		
	Discussion and Audience Interaction				Discussion and Audience Interaction		Discussion and Audience Interaction		
							Case 4:CMR in Heart Failure		
							Discussion and Audience Interaction		
							Case 5: Restrictive CMP		
							Discussion and Audience Interaction		
							Case 6:Constrictive pericarditis		
							Discussion and Audience Interaction		
							Case 7: CMR Quantification of MR		
							Discussion and Audience Interaction		
							Case 8:RV : The Forgotten Chamber		
							Discussion and Audience Interaction		

1:00-2:00	Stable CAD - More Questions than Answers	1:00-2:00	When Your Worst Nightmares Come True	1:00-2:00	Extracting the Most from the 12 lead ECG: ECG Interpretation Made Easy	1:00-2:00	Focussed Learning		
	Incidental CAD on Routine CT Angio: How to Proceed		Coronary Perforation - When and How to Seal the leak?		ECG in Supraventricular Tachycardia: Basics and Beyond		Transesophageal Echo in Endocarditis		
	Ischemia Testing for Stable CAD: Role and Relevance		Thrombus Formation during PCI: What to Do?		Wide Complex Tachycardia: Small clues in a Broad Rhythm		Stress Echocardiography - Pitfalls to Avoid		
	Medical Therapy for CAD: What is "Optimal"		Malignant Slow Flow or No Reflow on the Table - What Next?		AV Block: ECG Recognition and Localization		Making the best use of Contrast Echo		
	Refractory Angina: Therapeutic Approaches		Acute Hypotension with Pallor after a Successful PCI: What to do?		Beyond ST Elevation: ECG patterns for ACS		Prosthetic Valve Thrombosis: Is it Mandatory to do TEE		
	Angina with Normal Epicardial Coronary Arteries: What should we do?		Stent Dislodgement : Bailout Steps and Techniques		ECG in Dyselectrolytemia and Repolarization Syndromes		Mitral Regurgitation: Assessing the Mechanism		
	Discussion and Audience Interaction		Discussion and Audience Interaction				Aortic Stenosis: Evaluating Low-Flow Low-Gradient AS		
							Prosthetic Valve Function: What is Normal and What is Not?		
2:00-3:00	Heart Failure Care - Simplified	2:00-3:00	Meet the Legends: Session II- What I Always Wanted to Know But Didn't	2:00-3:00	Follow Up of Implantable Devices: Physicians Guide Book	2:00-3:00	Meet the Masters		
	Diagnosis and evaluation of a patient with suspected HF: Step Wise Approach		Assessing Coronary Physiology Before Resvascularization: Current Concepts		Pacemaker Troubleshooting: What every Phycian needs to Know		Pitfalls in Echo Assessment of Valvular Regurgitation and How to Avoid Them		
	Biomarkers in Heart Failure: When to order and How to Interpret		IVUS and OCT : Role and Relevance in PCI		CRT: What to Program to Optimize Outcomes		Role of Advanced Imaging in Evaluation of Cardiomyopathies		
	Acute decompensated HF: An Internist's Approach		New Devices for Debulking & Lesion Preparation: Tips & tricks		Inappropriate Shocks with ICDs: Recognition, Programming and Prevention		TBA		
	Treating HFrEF: ARNI vs ACEI/ARBs - Which will be My Choice in Indian context?		Managing True Bifurcation Lesions		Routine Home (Remote) Monitoring: An Idea Whose Time Has Come?		Echocardiographic Assessment of RV Function		
	Cardiorenal Syndrome in Heart Failure: A Pragmatic Approach		Discussion and Audience Interaction		My Pacemaker Dependent Patient has a Non Conditional ICD: Can he Undergo an MRI?				
	Discussion and Audience Interaction				Discussion and Audience Interaction				
3:00-4:00	Advanced Heart Failure - Therapeutics	3:00-4:00	Meet the Legends: Session III- What I Always Wanted to Know But Didn't	3:00-4:00	Controversies in Rhythm Management: How Will I Manage	3:00-3.45	Navin C Nanda Young Investigator Award		
	Heart Failure with Preseved EF: Diagnosis and Treatment		Carotid Intervention – When and How: The Masters Approach		Paroxysmal AF: Drugs or Ablation?		Presenter 1		
	Anemia/ Iron deficiency and Heart Failure		Transcatheter Aortic Valve Replacement: Tips and Tricks		Sick Sinus Syndrome : When to Wait and When to Pace		Discussion and Audience Interaction		
	ICD and CRT in HF - Current status		Tips and Tricks in Alcohol Septal Ablation		Frequent PVCs and Near Normal EF: How to Proceed?		Presenter 2		
	Devices to Support the Failing Heart: ECMO, LVAD and Tandem Heart		Optimising Coronary Stenting: Do's & Don't's		50 years old with prior MI with Recurrent Stable Monomorphic VT: Why, When & How to ablate?		Discussion and Audience Interaction		
	Heart Failure Clinics: Integral for a HF Program		Discussion and Audience Interaction		Bifascicular Block: When to Pace?		Presenter 2		
	Discussion and Audience Interaction				Discussion and Audience Interaction		Discussion and Audience Interaction		
4:00--5:00	Hypertension - The Silent Killer	4:00--5:00	CTO Workshop	4:00--5:00	Arrhythmia Potpourri: Physician Dilemmas	3.45--5:00	Echo Pearls		
	ACC Vs ESC Guidelines for Hypertension: Which fits Best in Indian Scenario?		Case Selection for CTO PCI: Choosing cases wisely		Managing an Implantable Device during MRI, Radiotherapy and Non-Cardiac Surgery		Relax with Diastology		
	First line Hypertensives: Which Drug and Why?		Angiogram Performance and Evaluation for the CTO Operator: Proximal Cap, Distal Cap, Lesion Length, and Collateral Assessment		My patient with Congenital CHB presents in the First Trimester of Pregnancy: To Pace or Not To Pace?		Constriction and Restriction		
	Managing Hypertension in Acute Stroke		Wire Selection and Basic Principles for Wire Manipulation for Antegrade Approach		Patient with CRT-D near ERI whose LVEF has Recovered: What now?		Lung Ultrasound		

	When and How to Screen for Secondary Hypertension		CTO Antegrade Reentry Techniques		My patient with Recurrent CHF has Non LBBB Morphology: Do I suggest CRT?		RWMA but no CAD		
	Managing Resistant Hypertension: Problems and Solutions		Balloon Uncrossable CTO Lesion: What Next ?		Prescribing Amiodarone : Practical Do's and Don't's		Masquerades of Vegetation		
	Discussion and Audience Interaction		Discussion and Audience Interaction		Discussion and Audience Interaction		ASD with Cyanosis		
							Cardiac Tumors		
5:00-5.45	Focused Session :Learn with the Masters	5:00-6.00	My Worst Complication : Lessons Learnt	5:00-6.00	Channelopathies	5:00-6.00	My Best Echo Case- Straight from the Masters		
	Contemporary Management of Chronic Heart Failure:Optimal use of Traditional and Newer drugs.		Radial Artery Access Complication		Early Repolarization: When is it Abnormal?		Case 1		
	TBA		Left Main Disaster		ARVC: Diagnostic Challenges		Case 2		
	TBA		Abrupt Vessel Closure		Brugada syndrome: Diagnosis and Risk Stratification		Case 3		
	Discussion and Audience Interaction		Burr Entrapment during Rotablation		Long QT Syndrome: Diagnosis and Risk Assessment		Case 4		
			Broken Balloons / Wires		Unmasking Channelopathies: Role of Provocation Tests		Case 5		
			Discussion and Audience Interaction		Role of ICD and Ablation in Patients with Inherited Arrhythmic Syndromes		Case 6		
							Case 7		
5.45-6.30	Focused Session :Learn with the Masters	6.00-7.00	ESC @ CSI Satellite Session						
	Cardiovascular Disease in Chronic Kidney Disease								
	How Useful is Echo in the Assessment and Management of Functional MR								
	General Overview of Diagnosis and Management of Hypertrophic								
	Discussion and Audience Interaction								
7.00 PM	Inauguration - Hall A		Inauguration		Inauguration		Inauguration		Inauguration
