Hall A		Hall B		Hall C		Hall D		Hall E	
9:00-10:00	Anticoagulation: Evolving Practices, Problems and Paradigms	9:00-10:00	Awards Session	9:00-10:00	Best Abstract Award Session				
	Anticoagulation Strategies post-PCI in Atrial Fibrillation: New Insights, New Approach		Prof. D. P. Basu Memorial Award						
	My patient is Optimally treated on Warfarin : Should I shift to DOACs		Modi Mundi Pharma Award						
	Choosing between DOACs Wisely: Are they all the Same?								
	Device Detected AF: Candidate for Anticoagulation?								
	Contraindications for DOACs: A Case Based Discussion								
	Reversing DOACs: Dos and Dont"s								
	Discussion and Audience Interaction								
10:00-11:00	Debate : Views and Counterviews	10:00-11:00	PAH	10:00-11:00	Pregnancy and Cardiac Disease				
	Debate - 1		Etiopathogenesis and Classification of PAH		Peripartum Cardiomyopathy: Diagnosis and Management				
	Statin for All Beyond 40 years?		PAH Diagnosis: Non Invasive Approach		Management of Valvular Heart Disease during Pregnancy				
	Pro		Drug Therapy for Idiopathic PAH: When? For Whom? How?		Pregnant patient with Mechanical Valve: Managing Anticoagulation				
	con		Managing PAH in HFeEF		Pregnancy and Congenital Heart Disease: An Overview				
	Rebuttal		Managing the Adult with Eisenmenger Syndrome: An Update		A case of a Pregnant woman with Aneurysmal Dilatation of Aorta (Dia 4.4 cm): Management Pearls				
	Rebuttal		CTEPH - Managemet in 2018		Discussion and Audience Interaction				
	Discussion and Chairperson Remarks		Discussion and Audience Interaction						
	Debate - 2								
	Pro								
	con								
	Rebuttal								
	Rebuttal								
	Discussion and Chairperson Remarks								
11:00-12:00	Syncope	11:00-12:00	How to Approach	11:00-12:00	Peripheral Vascular Disease				
	Approach to a Patient with Syncope		Patient with Asymptomatic Ischemia		Screening for Aortic Aneurysm in High Risk Individuals				
	Managing Neurocardiogenic Syncope: Status Update		Suspected Myocarditis		Salvaging Critical Limb Ischemia: The Right Approach				

	Syncope: My Greatest Surprise and My Worst Nightmare		HF Patient not Tolerating Beta Blockers		Renal Artery Stenosis: When to Intervene				
	Implantable Loop Recorders: Worth the Price?		Acute Cor Pulmonale		Antithrombotic Strategy for Peripheral Artery Thrombosis				
	Discussion and Audience Interaction		Ischemic Mitral Regurgitation		Varicose Veins: When to Intervene				
			Discussion and Audience Interaction		Discussion and Audience Interaction				
12:00-1:00	Clinical Cardiology: Do We have Definite Answers?	12:00-1:00	Veno Thrombo- Embolism	12:00-1:00	Hypertension : Rapid Fire				
	Executive Cardiac Check Up – Is it for Patient or Doctor?		Deep Vein Thrombosis: When to Thrombolyse		Beta-blockers in Hypertension: Current Status				
	Role of Viability Testing Before Re-vascularisation in LV Dysfunction: Does it have a Role?		Acute PE: To Lyse or Not to Lyse		Managing Postural Hypotension in Hypertensive Patients				
	Which Patient with Cardiac Arrest Should Be Wheeled into the Cath Lab?		Catheter Intervention for PE: Better outcomes?		Hypertension in heart failure				
	Cardiac Patient Undergoing Non Cardiac Surgery-Is the Patient “Cleared”?		IVC Filters: Real Role or An Exercise in Futility		Iatrogenic Hypertension				
	Discussion and Audience Interaction		Preventing Post Thrombotic Syndrome: Whats the Best Strategy		Hypertension and renal Failure				
			Discussion and Audience Interaction		Hypertension and sexual dysfunction.				
					Hypertension and RAS: When and How to Treat				
					Discussion and Audience Interaction				
1:00-2:00	Meeting Highlights Hall A		Meeting Highlights		Meeting Highlights		Meeting Highlights		Meeting Highlights
2.00 PM	Award Presentation and Valedictory Function Hall A		Award Presentation and Valedictory Function		Award Presentation and Valedictory Function		Award Presentation and Valedictory		Award Presentation and Valedictory
