

70th Annual Conference of Cardiological Society of India CSICON - 2018
22nd- 25th November 2018 Mumbai

Day 1	22nd- 25th November 2018 Mumbai	Day 1	22nd Nov 2018 Thursday	Day 1	22nd Nov 2018 Thursday	Day 1	22nd Nov 2018 Thursday	Day 1	22nd Nov 2018 Thursday
Hall A		Hall B		Hall C		Hall D		Hall E	
	CME in Cardiology		National Intervention Council		Pediatric Cardiology & EP Council		Echo & Imaging Council		
9:00-10:00	New Kids on the Block	9:00-10:00	Cath Lab Practicals: Beginners Boot Camp - Session I: Basic about My Tool	9:00-10:00	Imaging in CHD - Taking a Deeper Look	9:00-10:00	Cardiac Imaging Conclave		
9:00-9:09	Anti-Obesity Agents	9:00-9:12	Radial Access: Tips and Tricks	9:00-9:10	Comprehensive Echocardiographic Assessment of a VSD	9:00-9:12	Cardiac CT: The Crystal Ball of Truth. One stop shop: Plaque, Stenosis, Ischemia, Viability and FFR		
9:09-9:18	New PAH Therapies	9:12-9:24	Choosing the Optimal Coronary Guidecatheter	9:10-9:20	ASD : To Device or Not? An Echo Guide	9:12-9:24	Can Cardiac MRI conquer viability challenge?		
9:18-9:27	Antihyperkalemics Agents	9:24-9:36	Choosing the Correct Coronary Guidewire	9:20-9:30	Common Mistakes to Avoid in CHD Echocardiography	9:24-9:36	Cardiac MRI: The Critical Piece in the Puzzle for NICMP		
9:27-9:36	Newer ARBs & CCBs	9:36-9:48	Choosing between Coronary Angioplasty Balloons	9:30-9:40	CT Angiography in CHD - Is it Worth the Radiation?	9:36-9:48	Imaging in TAVR: All I Need to Know		
9:36-9:45	Antidotes for DOACs	9:48-10:00	Coronary Stent Selection	9:40-9:50	When would I order a Cardiac MRI in a Child?	9:48-10:00	How is nuclear cardiology gearing up for the challenge from other imaging techniques?		
9:45-9:54	Newer Antidyslipidemics: PCSK9 Inhibitors, siRNA Inhibitor			9:50-10:00	Discussion and Audience Interaction				
9:54-10:00	Discussion and Audience Interaction								
10:00-11:00	Controversies in Cardiology - Is there a Consensus?	10:00-11:00	Cath Lab Practicals: Beginners Boot Camp - Session II: Techniques	10:00-11:00	Bread and Butter Pediatric Cardiology	10:00-11:00	Day to Day Echocardiography		
10:00-10:09	Digitalis in HF - Is there an Indication Left?	10:00-10:12	When to POT and How to Do it	10:00-10:10	Difficult AVBD and PVBD	10:00-10:10	Echocardiography in the Emergency		
10:09-10:18	68 year old male with No Risk Factors : Should a Calcium Score be done for Risk	10:12-10:24	Bifurcation Techniques for the Beginners	10:10-10:20	ASD Device closure - Tips and Tricks	10:10-10:20	Mistakes to Avoid in LVEF Assessment		
10:18-10:27	Should Non Fasting Lipid Profile be the Standard of Care?	10:24-10:36	Primary PCI: Do's and Don't's	10:20-10:30	Difficult PDAs for Device Closure - How to Identify and Succeed	10:20-10:30	Diastology - Simplified		
10:27-10:36	Should an Angiogram be done in all patients of STEMI presenting after 3 days?	10:36-10:48	FFR and IFR - Practical Aspects	10:30-10:40	Vascular Access in Children - Tips and Tricks	10:30-10:40	Assessing Individual Valve Lesion Severity in Multivalvular Heart Disease		
10:36-10:45	Vaccination in Cardiovascular Disease - Is it for All?	10:48-11:00	Discussion and Audience Interaction	10:40-10:50	VSD - Natural History and When to Intervene	10:40-10:50	Assessing PAH		
10:45-10:54	Is Hydrochorthiazide being Pushed to Oblivion? Right or Wrong			10:50-11:00	Discussion and Audience Interaction	10:50-11:00	Discussion and Audience Interaction		
10:54-11:00	Discussion and Audience Interaction								
11:00-12:00	Lipidology - An Overview for the Clinician	11:00-12:00	CSI's Got Talent: Challenging Case Presentations	11:00-12:00	Interventional Pediatric Cardiology - Expanding Horizons	11:00-12:00	Advances in Echocardiography		
11:00-11:09	Lipid Guidelines: An Overview	11:00-11:07	Let us fish the fish	11:00-11:10	VSD Device Closure - Is it Ready for Prime Time?	11:00-11:10	3D Echocardiography - Utility or Futility?		
11:09-11:18	Treating High Triglycerides: Reducing CV Risk or a Mere Cosmetic Reduction	11:07-11:14	Percutaneous closure of a large coronary pseudoaneurysm with a stent graft – a case report	11:10-11:20	RSOV Device Closure - Patient Selection and Tricks	11:10-11:20	Integrating Strain Imaging in my Echo practice		
11:18-11:27	LDL Levels: How Low is Low Enough?	11:14-11:21	PTCA of CTO of RCA, arising from left coronary sinus	11:20-11:30	Coarctation in Adults - Should I Stent All?	11:20-11:30	Stress Perfusion Echocardiography - Is it Ready for Prime Time?		
11:27-11:36	Choosing between Statins: Personal Preference or Rational Choice	11:21-11:28	Left Main Quadrifurcation	11:30-11:40	Palliative Interventions in Cyanotic CHD	11:30-11:40	Interventional Echocardiography and Echo-Navigation		
11:36-11:45	Non Statin alternatives for Lipid Management: An Overview	11:28-11:35	Lasso technique using trans-radial approach to facilitate stent graft delivery to aortic arch during TEVAR	11:40-11:50	Transcatheter Pulmonary Valve Implantation: An Update	11:40-11:50	Fetal Echo: State of the Art		

11.45-11.54	Diabetic Dyslipidemia - Is it a Distinct Entity?	11.35-11.42	Percutaneous closure of accidental iatrogenic right atrial perforation.	11.50-12.00	Discussion and Audience Interaction	11.50-12.00	Discussion and Audience Interaction		
11.54-12.00	Discussion and Audience Interaction	11.42-11.49	The Heart that refused to stop !! - rarest of rare case of HYBRID transcatheter device closure in extreme dextroposition						
		11.49-11.56	An unusual site of VSD device embolization followed by unusual access site for device retrieval						
12:00-1:00	Prevention of CAD - Striving to Make it a Reality	12:00-1:00	Meet the Legends: Session I- What I Always Wanted to Know But Didn't	12:00-1:00	Adults with CHD - The GUCH Group	12:00-1:00	Advanced Imaging: Case Based Discussion		
12.00-12.10	CV Risk Scores: Which one is Ideal for Indians?	12.00-12.15	CTO - Antegrade to Retrograde Approach: Tips for Beginners	12.00-12.10	The 'Totally Corrected' TOF: How to Follow Up?	12.00-12.10	Case 1: Role of CT/CMR in Post Intervention Chest Pain		
12.10-12.20	Early detection of CVD: Why, When and How	12.15-12.30	High Risk PCI : Do's & Don'ts	12.10-12.20	Living with Fontan	12.10-12.20	Case 2: CMR in VT		
12.20-12.30	Targeting CV Risk: Novel Risk factors and New Therapies	12.30-12.45	Left Main Interventions – Techniques to Use in 2018	12.20-12.30	CTGA: Approach to Management	12.20-12.30	Case 3: CMR in Hypertrophic CMP		
12.30-12.40	Primary Prevention of CVD in Diabetics	12.45-1.00	Graft Intervention - Tips and Tricks	12.30-12.40	Ebstein's Anomaly - A Contemporary Update	12.30-12.40	Case 4:CMR in Heart Failure		
12.40-12.50	Diet and Exercise Prescription for CAD			12.40-12.50	Adult CHD Guidelines - What is New?	12.40-12.50	Case 5: Role of advanced Imaging in Restrictive CMP		
12.50-1.00	Discussion and Audience Interaction			12.50-1.00	Discussion and Audience Interaction	12.50-1.00	Discussion and Audience Interaction		
1:00-2:00	Stable CAD - More Questions than Answers	1:00-2:00	When Your Worst Nightmares Come True	1:00-2:00	Extracting the Most from the 12 lead ECG: ECG Interpretation Made Easy	1:00-2:00	Focused Learning in Echo		
1.00-1.10	Incidental CAD on Routine CT Angio: How to Proceed	1.00-1.10	Coronary Perforation - When and How to Seal the leak?	1.00-1.12	ECG in Supraventricular Tachycardia: Basics and Beyond	1.00-1.10	Transesophageal Echo in Endocarditis		
1.10-1.20	Ischemia Testing for Stable CAD: Role and Relevance	1.10-1.20	Thrombus Formation during PCI: What to Do?	1.12-1.24	Wide Complex Tachycardia: Small clues in a Broad Rhythm	1.10-1.20	Stress Echocardiography - Pitfalls to Avoid		
1.20-1.30	Medical Therapy for CAD: What is "Optimal"	1.20-1.30	Malignant Slow Flow or No Reflow on the Table - What Next?	1.24-1.36	AV Block: ECG Recognition and Localization	1.20-1.30	Making the best use of Contrast Echo		
1.30-1.40	Refractory Angina: Therapeutic Approaches	1.30-1.40	Acute Hypotension with Pallor after a Successful PCI: What to do?	1.36-1.48	Beyond ST Elevation: ECG patterns for ACS	1.30-1.40	Aortic Stenosis: Evaluating Low-Flow Low-Gradient AS		
1.40-1.50	Angina with Normal Epicardial Coronary Arteries: What should we do?	1.40-1.50	Stent Dislodgement : Bailout Steps and Techniques	1.48-2.00	ECG in Dyselectrolytemia and Repolarization Syndromes	1.40-1.50	Prosthetic Valve Function: What is Normal and What is Not?		
1.50-2.00	Discussion and Audience Interaction	1.50-2.00	Discussion and Audience Interaction			1.50-2.00	Discussion and Audience Interaction		
2:00-3:00	Heart Failure Care - Simplified	2:00-3:00	Meet the Legends: Session II- What I Always Wanted to Know But Didn't	2:00-3:00	Follow Up of Implantable Devices: Physicians Guide Book	2:00-3:00	Meet the Masters		
2.00-2.10	Diagnosis and evaluation of a patient with suspected HF: Step Wise Approach	2.00-2.15	Assessing Coronary Physiology Before Resvascularization: Current Concepts	2.00-2.10	Pacemaker Troubleshooting: What every Phycian needs to Know	2.00-2.20	Pitfalls in Echo Assessment of Valvular Regurgitation and How to Avoid Them		
2.10-2.20	Biomarkers in Heart Failure: When to order and How to Interpret	2.15-2.30	IVUS and OCT : Role and Relevance in PCI	2.10-2.20	CRT: What to Program to Optimize Outcomes	2.20-2.40	Role of Advanced Imaging in Evaluation of Cardiomyopathies		
2.20-2.30	Acute decompensated HF: An Internist's Approach	2.30-2.45	New Devices for Debulking & Lesion Preparation: Tips & Tricks	2.20-2.30	Inappropriate Shocks with ICDs: Recognition, Programming and Prevention	2.40-3.00	Echocardiographic Assessment of RV Function		
2.30-2.40	Treating HFrEF: ARNI vs ACEI/ARBs - Which will be My Choice in Indian	2.45-3.00	Managing True Bifurcation Lesions	2.30-2.40	Routine Home (Remote) Monitoring: An Idea Whose Time Has Come?				
2.40-2.50	Cardiorenal Syndrome in Heart Failure: A Pragmatic Approach			2.40-2.50	My Pacemaker Dependent Patient has a Non Conditional ICD: Can he Undergo an MRI?				
2.50-3.00	Discussion and Audience Interaction			2.50-3.00	Discussion and Audience Interaction				
3:00-4:00	Heart Failure - Therapeutics	3:00-4:00	Meet the Legends: Session III- What I Always Wanted to Know But Didn't	3:00-4:00	Controversies in Rhythm Management: How Will I Manage	3:00-3.30	Navin C Nanda Young Investigator Award		
3.00-3.10	Heart Failure with Preserved EF: Diagnosis and Treatment	3.00-3.15	Carotid Intervention – When and How: The Masters Approach	3.00-3.10	Paroxysmal AF: Drugs or Ablation?	3.00-3.08	Presenter 1		
3.10-3.20	Anemia/ Iron deficiency and Heart Failure	3.15-3.30	Transcatheter Aortic Valve Replacement: Tips and Tricks	3.10-3.20	Sick Sinus Syndrome : When to Wait and When to Pace	3.08-3.10	Discussion and Audience Interaction		
3.20-3.30	Prescription of EDTM in Heart Failure: Practical Tips	3.30-3.45	Tips and Tricks in Alcohol Septal Ablation	3.20-3.30	Frequent PVCs and Near Normal EF: How to Proceed?	3.10-3.18	Presenter 2		

3.30 - 3.40	ICD and CRT in HF - Current status	3.45-4.00	Optimising Coronary Stenting: Do's & Don't's	3.30-3.40	50 years old with prior MI with Recurrent Stable Monomorphic VT: Why, When &	3.18-3.20	Discussion and Audience Interaction		
3.40 - 3.50	Devices to Support the Failing Heart: ECMO, LVAD and Tandem Heart			3.40-3.50	Bifascicular Block: When to Pace?	3.20-3.28	Presenter 3		
3.50 - 4.00	Discussion and Audience Interaction			3.50-4.00	Discussion and Audience Interaction	3.28-3.30	Discussion and Audience Interaction		
4:00-5:00	Hypertension - The Silent Killer	4:00-5:00	CTO Workshop	4:00-5:00	Arrhythmia Potpourri: Physician Dilemmas	3.30-4.20	Echo Pearls		
4.00 - 4.10	ACC Vs ESC Guidelines for Hypertension: Which fits Best in Indian Scenario?	4.00-4.10	Case Selection for CTO PCI: Choosing cases wisely	4.00-4.10	Managing an Implantable Device during MRI, Radiotherapy and Non-Cardiac Surgery	3.30-3.38	Relax with Diastology		
4.10 - 4.20	First line Hypertensives: Which Drug and Why?	4.10-4.20	Angiogram Performance and Evaluation for the CTO Operator: Proximal Cap, Distal Cap, Lesion Length, and Collateral Assessment	4.10-4.20	My patient with Congenital CHB presents in the First Trimester of Pregnancy: To Pace or Not To Pace?	3.38-3.46	Constriction and Restriction		
4.20 - 4.30	Managing Hypertension in Acute Stroke	4.20-4.30	Wire Selection and Basic Principles for Wire Manipulation for Antegrade Approach	4.20-4.30	Patient with CRT-D near ERI whose LVEF has Recovered: What now?	3.46-3.54	Lung Ultrasound		
4.30 - 4.40	When and How to Screen for Secondary Hypertension	4.30-4.40	CTO Antegrade Reentry Techniques	4.30-4.40	Preventing PSVT Recurrence: Is there any Role for Drugs	3.54-4.02	ASD with Cyanosis		
4.40 - 4.50	Managing Resistant Hypertension: Problems and Solutions	4.40-4.50	Balloon Uncrossable CTO Lesion: What Next ?	4.40-4.50	Prescribing Amiodarone : Practical Do's and Don't's	4.02-4.10	Cardiac Tumors		
4.50 - 5.00	Discussion and Audience Interaction	4.50-5.00	Discussion and Audience Interaction	4.50-5.00	Discussion and Audience Interaction	4.10-4.18	MR what is the cause		
5:00-5.35	Focused Session :Learn with the Masters	5:00-6.00	My Worst Complication : Lessons Learnt	5:00-6.00	Channelopathies	4.20-5.10	My Best Echo Case- Straight from the Masters		
5.00-5.15	Contemporary Management of Chronic Heart Failure:Optimal use of Traditional and Newer drugs.	5.00 - 5.10	Radial Artery Access Complication	5.00 - 5.10	Early Repolarization: When is it Abnormal?	4.20-4.30	Case 1		
5.15-5.30	Peripheral Arterial Disease: What is New and Why it is Important for Clinicians?	5.10 - 5.20	Left Main Disaster	5.10 - 5.20	ARVC: Diagnostic Challenges	4.30-4.40	Case 2		
5.30-5.35	Discussion and Audience Interaction	5.20 - 5.30	Abrupt Vessel Closure	5.20 - 5.30	Brugada syndrome: Diagnosis and Risk Stratification	4.40-4.50	Case 3		
		5.30 - 5.40	Acute Stent Thrombosis	5.30 - 5.40	Long QT Syndrome: Diagnosis and Risk Assessment	4.50-5.00	Case 4		
		5.40 - 5.50	Broken Balloons / Wires	5.40 - 5.50	Unmasking Channelopathies: Role of Provocation Tests	5.00-5.10	Case 5		
		5.50 - 6.00	Discussion and Audience Interaction	5.50 - 6.00	Role of ICD and Ablation in Patients with Inherited Arrhythmic Syndromes				
5.35-6.15	Focused Session :Learn with the Masters	6.00-7.00	ESC @ CSI Satellite Session			5.10-6.00	Case Presentation : Interesting Echo		
5.35-5.47	General Overview of Diagnosis and Management of Hypertrophic Cardiomyopathy					5.10-5.17	Early left ventricular free wall rupture (LVFWR) followed by Inferior wall Non ST Elevation Myocardial Infarction		
5.47-5.59	Cardiovascular Disease in Chronic Kidney Disease					5.17-5.24	Extracardiac tumours presenting as intracavitary metastasis		
5.59-6.11	How Useful is Echo in the Assessment and Management of Functional MR					5.24-5.31	Common catastrophe of not so uncommon brucella endocarditis: Echo imaging of 4 cases from a tertiary care centre.		
6.11-6.15	Discussion and Audience Interaction					5.31-5.38	Neonate in Respiratory distress with a to and fro shunt from Aorta to Right Ventricle		
						5.38-5.45	A rare cause of Intracardiac mass: Intravenous Leiomyomatosis		
						5.45-5.52	Acute Aortic Dissection mimicking acute anterior wall myocardial infarction		
						5.52-5.59	A rare case of left ventricular myxoma		

7.00 PM	Inauguration - Hall A		Inauguration		Inauguration		Inauguration		Inauguration	
------------	-----------------------	--	--------------	--	--------------	--	--------------	--	--------------	--
