

70th Annual Conference of Cardiological Society of India CSICON - 2018
22nd- 25th November 2018 Mumbai

Day 4	25 Nov 2018 Sunday	Day 4	25 Nov 2018 Sunday	Day 4	25 Nov 2018 Sunday	Day 4	25 Nov 2018 Sunday	Day 4	25 Nov 2018 Sunday
Hall A		Hall B		Hall C		Hall D		Hall E	
9:00-10:00	Anticoagulation: Evolving Practices, Problems and Paradigms	9:00-10:00	Awards Session (Prof. D P Basu Memorial Award & Modi Mundi Pharma	9:00-10:00	Best Abstract Award Session	9:00-10:00	Case Presentation: Coronary Intervention		
9:00-9:10	Anticoagulation Strategies post-PCI in Atrial Fibrillation: New Insights, New Approach	Prof. D P Basu Memorial Award	CT Virtual Cardiac Dissection: A Novel Method of Enhanced 3D Visualization of Internal Cardiac Anatomy			9:00-9:06	LIMA – RIMA – PDA distal anastomosis intervention.		
9:10-9:20	My patient is Optimally treated on Warfarin : Should I shift to DOACs	Prof. D P Basu Memorial Award	A decade of free CRT Implantation - a Powaqqatsi averted !! -Real - world data from Sri Sathya Sai Institute of Higher Medical Sciences Whitefield, Bangalore			9:06-9:12	Recurrent Acute Coronary Syndrome due to Spontaneous Coronary Artery Dissection		
9:20-9:30	Choosing between DOACs Wisely: Are they all the Same?	Prof. D P Basu Memorial Award	Evaluation of Systemic and Tissue Levels of Cytokines of Th17 Axis and Th1 Axis In Patients of Chronic Rheumatic Heart Disease: An Observational Study			9:12-9:18	Primary PTCA to type IV dual LAD -a very rare entity		
9:30-9:40	Contraindications for DOACs: A Case Based Discussion	Prof. D P Basu Memorial Award	Idiopathic outflow-tract ventricular tachycardia: can sinus rhythm electrocardiography help to identify underlying occult cardiac sarcoidosis?			9:18-9:24	Complex bifurcation case		
9:40-9:50	When and How to Screen Hypercoagulable State	Prof. D P Basu Memorial Award	Correlation of QRS duration with myocardial blush grade as a marker of myocardial reperfusion in primary percutaneous coronary intervention			9:24-9:30	Wedding ring		
9:50-10:00	Discussion and Audience Interaction	Prof. D P Basu Memorial Award	Natural History of Reversible Symptomatic Bradyarrhythmia- an observational study with long term followup			9:30-9:36	Innovative approach using multiple stents to treat a diffusely diseased LAD with 100% occlusion from ostium presenting as NSTEMI		
		Modi Mundi Pharma Award	Comparison of immediate and 6-month follow-up results of percutaneous transseptal mitral commissurotomy in patients of rheumatic mitral stenosis in sinus rhythm and atrial fibrillation - An echocardiographic and haemodynamic study			9:36-9:42	Anomalous Origin of the Right Coronary Artery from the Left Anterior Descending Artery: A Rare Coronary Anomaly		
						9:42-9:48	Intravascular ultrasound guided management of proximal Left Anterior descending artery aneurysm with covered Stent		
						9:48-9:54	Post CABG Bifurcation Stenting of LMCA and Stenting of Saphenous Vein Graft to Left Anterior Descending Artery under IVUS Guidance		

10:00-11:00	Point and Counterpoint	10:00-11:00	PAH	10:00-11:00	Pregnancy and Cardiac Disease	10:00-11:00	Case Presentation: Structural heart Intervention		
	Moderate Risk AS	10:00-10:10	Recent Advances in Echo Assessment of PAH	10:00-10:10	Peripartum Cardiomyopathy: Diagnosis and Management		Successful Endovascular Treatment of Abdominal Aorta and Left Common Iliac Artery in Critical Limb Ischemia in a High Risk Patient		
10:00-10:08	Time to move to TAVR	10:10-10:20	PAH Diagnosis: Non Invasive Approach	10:10-10:20	Management of Valvular Heart Disease during Pregnancy		Murphys law in cath lab – our experience with TAVR.		
10:08-10:16	Don` t Jump the Gun: SAVR is the Answer	10:20-10:30	Drug Therapy for Idiopathic PAH: When? For Whom? How?	10:20-10:30	Pregnant patient with Mechanical Valve: Managing Anticoagulation		Successful percutaneous device closure of a large 16mm Patent Ductus arteriosus in a 12 year old Male		
10:16-10:20	Discussion and Audience Interaction	10:30-10:40	Managing PAH in Heart Failure	10:30-10:40	Pregnancy and Congenital Heart Disease: An Overview		Deficient aortic rim of large atrial septal defect made sufficient for device closure by peripheral balloon assisted technique		
	Left Main Stenting	10:40-10:50	Managing the Adult with Eisenmenger Syndrome: An Update	10:40-10:50	A case of a Pregnant woman with Aneurysmal Dilatation of Aorta (Dia 4.4 cm): Management Pearls		PDA Device closure-a day when nothing works		
10:20-10:28	Imaging is Mandatory	10:50-11:00	Discussion and Audience Interaction	10:50-11:00	Discussion and Audience Interaction		BUDD CHIARI		
10:28-10:36	Where is the evidence: Imaging is optional						A Case Of Common Iliac CTO Angioplasty Demonstrating Different Techniques And Approaches Of Peripheral Intervention		
10:36-10:40	Discussion and Audience Interaction						A case of takayasu arteritis- multiple transcatheter interventions-a challenging case with respect to disease progression and therapeutic interventions with focus on LMCA re-stenosis intervention		
	LAA Appendage Closure								
10:40-10:48	For all at high Bleeding Risk								
10:48-10:56	Procedure Searching for Indication								
10:56-11:00	Discussion and Audience Interaction								
11:00-12:00	Syncope	11:00-12:00	How to Approach	11:00-12:00	Peripheral Vascular Disease	11:00-12:00	Case Presentation: Miscellaneous		
11:00-11:12	Approach to a Patient with Syncope	11:00-11:10	Patient with ACS with Thrombocytopenia	11:00-11:10	Screening for Aortic Aneurysm in High Risk Individuals		Hypothenar Hammer Syndrome - An Unusual Cause of Ulnar Artery Thrombosis		
11:12-11:24	Managing Neurocardiogenic Syncope: Status Update	11:10-11:20	Suspected Myocarditis	11:10-11:20	Salvaging Critical Limb Ischemia: The Right Approach		Endocardial ablation of monomorphic vt in a patient with LVH, apical anurysm and normal epicardial coronaries		
11:24-11:36	Syncope: My Greatest Surprise and My Worst Nightmare	11:20-11:30	HF Patient not Tolerating Beta Blockers	11:20-11:30	Renal Artery Stenosis: When to Intervene		A rare case of drug reaction leading to dangerous coronary spasm		

11.36-11.48	Implantable Loop Recorders: Worth the Price?	11.30-11.40	Acute Cor Pulmonale	11.30-11.40	Antithrombotic Strategy for Peripheral Artery Thrombosis		A case of Refractory Heart failure: Can it be reversed with HIS bundle pacing?		
11.48-12.00	Discussion and Audience Interaction	11.40-11.50	Ischemic Mitral Regurgitation	11.40-11.50	Varicose Veins: When to Intervene		Cardiac transplant or reversible cardiomyopathy?		
		11.50-12.00	Discussion and Audience Interaction	11.50-12.00	Discussion and Audience Interaction		Percutaneous closure of multiple Pulmonary Arterio-Venous Malformation using Amplatzer Vascular Plugs.		
12:00-1:00	Clinical Cardiology: Do We have Definite Answers?	12:00-1:00	Veno Thrombo- Embolism	12:00-1:00	Hypertension : Rapid Fire		A case of abdominal angina		
12.00-12.12	Executive Cardiac Check Up – Is it for Patient or Doctor?	12.00-12.10	Deep Vein Thrombosis: When to Thrombolyse	12.00-12.08	Beta-blockers in Hypertension: Current Status		A rare combination of Hemitruncus with dysplastic tricuspid valve		
12.12-12.24	Role of Viability Testing Before Re-vascularisation in LV Dysfunction: Does it have a Role?	12.10-12.20	Acute PE: To Lyse or Not to Lyse	12.08-12.16	Managing Postural Hypotension in Hypertensive Patients		Intervention in a case of sitophobia		
12.24-12.36	Which Patient with Cardiac Arrest Should Be Wheeled into the Cath Lab?	12.20-12.30	Catheter Intervention for PE: Better outcomes?	12.16-12.24	Hypertension in heart failure				
12.36-12.48	Cardiac Patient Undergoing Non Cardiac Surgery-Is the Patient “Cleared”?	12.30-12.40	IVC Filters: Real Role or An Exercise in Futility	12.24-12.32	Iatrogenic Hypertension				
12.48-1.00	Discussion and Audience Interaction	12.40-12.50	Preventing Post Thrombotic Syndrome: Whats the Best Strategy	12.32-12.40	Hypertension and Renal Failure: Management Issues				
		12.50-1.00	Discussion and Audience Interaction	12.40-12.48					
				12.48-12.50	Discussion and Audience Interaction				
1:00-2:00	Meeting Highlights Hall A		Meeting Highlights		Meeting Highlights		Meeting Highlights		Meeting Highlights
2.00 PM	Award Presentation and Valedictory Function Hall A		Award Presentation and Valedictory Function		Award Presentation and Valedictory Function		Award Presentation and Valedictory Function		Award Presentation and Valedictory Function
